

## Main benefits of all Nutralactis probiotics:

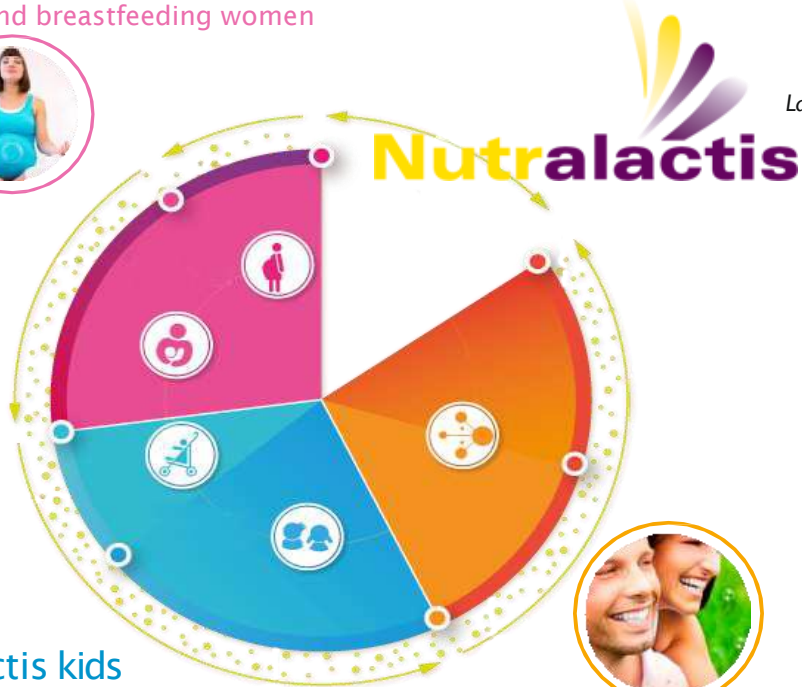

- Include a combination of Bifidobacteria and Lactobacilli that restores the balance of the microbiota and have been tested for compatibility
- Contain prebiotics: FOS and GOS naturally present in breast milk

- Are recommended by healthcare professionals
- Benefit from strain-specific bibliographic support
- Are manufactured under pharmaceutical GMP standards
- Are gluten free: suitable for people with celiac disease
- Are included in the QPS list of microorganisms safe for human consumption

## Nutralactis maternal

Pregnant and breastfeeding women

## Nutralactis kids

Children

## Nutralactis adults

Adolescents and adults

# Nutralactis adults

## Composition

**Probiotics:** *Lactobacillus rhamnosus* RO011
